

Introduction

The Health Sciences Library was created from university policy in 1993. That's when they set up the faculties of Medicine, Medical Science, Pharmaceutical Sciences, Dentistry, Nursing, and Allied Health Sciences programs.

The Health Sciences Library was established at the end of the year and opened on June 9th 1994. For the next six years the library was located in building number one, on the second floor, Faculty of Pharmaceutical Sciences. Then in June 2000, the library was moved to the fifth floor, Faculty of Medicine, where it is now. The library is administered and managed by library specialist, Mrs. Walulee Bhodhirangsiyakorn.

Objectives

1. To function as a repository for Health Sciences Literature.
2. To serve Faculty and students in the field of Health Sciences.
3. To lend support to the Main Library, including the library technical unit.
